SETTING THE STANDARD IN PLASTIC EXTRUSIONS

Innovation at Jifram= 17 Patents

www.jifram.com

JIFRAM EXTRUSIONS, INC., established in 1981, is an experienced plastic profile extrusion manufacturer, specializing in custom and stock profiles, industrial plastic pallets and a complete line of home improvement products.

We are dedicated to maintaining our reputation as a premier supplier and partner to the P.O.P. (point of purchase) and O.E.M. industries throughout the world. Quality, quick turn around and competitive pricing has propelled us to the forefront of these industries; innovation and superior customer service keep us there.

Jifram offers 15 extrusion lines to meet customer needs. Our full-service capabilities, including engineering design, tooling, extrusions, secondary operations and fulfillment services, streamline your supplier needs.

Your Source for Custom Plastic Extrusions

Check out our Stock Tool Inventory with over 150 profiles
